

## YOUTH EXHIBITION POULTRY ASSN.

[www.youthexhibitionpoultry.org](http://www.youthexhibitionpoultry.org)

**A Crooked Keel bone (breast) is a disqualification in Turkeys, Cornish & Assels.**

**Points are cut for all other fowl.**

(see page 31 of the APA Standard of Perfection)

When handling your birds you should be able to feel a distinctive curvature of the keel bone.

**This is one of the things that a new exhibitor or showman might overlook when selecting a bird for show.**
